

DRAINAGE BINS

HWMAXI 10M3 DRAINAGE BINS

Introducing our innovative bin solution designed for efficiency and versatility. Crafted as a practical and durable solution for drain layers and construction workers. These bins feature a robust design for seamless functionality, including a top bar which facilitates effortless towing by digger operators. Aside from its primary function, these bins also offer versatile storage options, accommodating various tools and equipment for easy transitions between jobs. We offer full customization to tailor to all requirements, ensuring excellent performance in any work environment.
