OF WASTE**

HW INDUSTRIES

MANUFACTURERS OF QUALITY EQUIPMENT

MAXI TUMBLA MINI

TOW WITH RIDE ONS/ QUADS

Tow with a quad, or ride on, easy loading, easy towing, quick unloading.

NEW ZEALAND MADE

Quality equipment proudly made in New Zealand.

This is the smallest model made for towing with ride on mowers/quads or even moved by hand with ease. It's so easy to use and holds up to 0.5m³. The mini model can easily be loaded and unloaded by the youngest of workers as they are so well balanced for their rollover action to unload.

MAXI TUMBLA SMALL

TOWING

Tow with a quad, ute, or small tractor, easy loading, easy towing, quick unloading.

TIME SAVER

Quick and easy unloading of material.

This size model suits the bigger ride ons, quads and small tractors. It holds 1m³ and is easily loaded over the sides. Has a easily accessible trip handle to activate the action of the rollover function to discharge the material in the bowl. An awesome unit to quickly rid your world of waste.

MAXI TUMBLA MEDIUM

TOWING

Tow with a ute, or tractor, easy loading, easy towing, quick unloading.

PROTECTIVE COATING

Fully dipped galvanized to last a lifetime of harsh environments

Holds 1.5m³ and size is suitable to be towed by quads, small & medium tractors, utes etc... Increased capacity means less trips to shift the material. Pull cord release lever that resets when you drive forward.

MAXI TUMBLA LARGE

ROBUST

Rugged design for strength and durability.

TOWING

Tow with a ute, or tractor, easy loading, easy towing, quick unloading.

The large model is the biggest in our range and holds 2m³, it has all the features of the other models and is most suitable to be towed by utes and tractors. You can dump huge amounts of material without having to shovel the material out for quick and easy unloading.
